

**SBS SOLAR: THE TRANSFER OF RIGHTS RELATED TO THE DEVELOPMENT AND CONSTRUCTION OF A PHOTOVOLTAIC PLANT OF ABOUT 10 MWp FOR AN AMOUNT OF ABOUT EURO 2.1 MILLION HAS BEEN PERFORMED**

**The closing of the transaction for the sale of rights for the development, construction and operate of a photovoltaic plant located in Lombardy was held today**

*Gadesco Pieve Delmona (CR), 28 October 2024 –Ecomembrane S.p.A., (ISIN IT0005543332)*, leader in the design and construction of gas storage and containment systems for the production of green energy, listed on the EGM segment of Borsa Italiana S.p.A., following up on the press release of September 27, 2024, announces that the subsidiary SBS Solar S.r.l. today finalized the transfer of rights for the development, construction and operate of a photovoltaic plant with an expected production capacity of approximately 10 MWp (the “Transfer”), located in Lombardy, signed with Romea S.r.l., a company belonging to the Bluenergy-Gas Sales Group, a leading operator in the supply of electricity and natural gas. The consideration for the transfer of the Rights on the Project amounts to approximately Euro 2.1 million plus statutory VAT; the Transfer is subject to the non-occurrence of certain termination conditions typical for similar transactions.

## **Information about Ecomembrane**

***Ecomembrane S.p.A.**, with registered office in Gadesco Pieve Delmona (Cremona) and North Little Rock (Arkansas, USA), has been operating in the renewable energies and biogas sector since 2000 and is managed by its Founder and CEO, Lorenzo Spedini. Ecomembrane considers itself one of the founding fathers of the modern era membrane gasholders and is specialised in producing gasholders, heat shields for anaerobic digesters, odour control-covers made in PVC-coated fabric membrane and all parts of products needed for the combustion of biogas and the production of electricity. With 10 patents active in the sector, the Company designs, produces, markets and installs components for biogas and biomethane production plants and gas storage systems such as biogas, methane, CO<sub>2</sub>, hydrogen. It is also involved in the photovoltaic sector through its subsidiary SBS Solar, focusing on the sale of single-axis trackers and the development and construction of turnkey systems. The Company currently has 70 employees and is present commercially on all continents and in 40 countries, with offices and production units in Italy and the USA. Ecomembrane has installed its products around the world, from Minnesota (USA) to South Korea, Italy, Turkey and Malaysia. The commercial network is managed directly by Ecomembrane personnel for the Italian and American market, whereas it uses a widespread distributor network for the rest of the world.*
