

**SBS SOLAR SIGNS: (i) A SERVICE AGREEMENT FOR DEVELOPMENT ACTIVITIES AIMED AT OBTAINING THE “READY TO BUILD” STATUS OF A PHOTOVOLTAIC PLANT FOR AN AMOUNT OF €714,000 AND (ii) A COMMITMENT FOR THE CONSTRUCTION OF THE AFOREMENTIONED PLANT FOR AN AMOUNT OF APPROXIMATELY €4.5 MILLION**

**Gadesco Pieve Delmona, 29nd September 2025** – Ecomembrane S.p.A. (hereafter “Ecomembrane” or the “Company”, ISIN IT0005543332), leading company in the design and construction of gas storage and containment systems for the production of green energy, listed on the EGM segment of Borsa Italiana S.p.A., announces that its subsidiary SBS Solar S.r.l. (hereinafter also referred to as “SBS”) has signed a service agreement with Photovoltaicum S.r.l., an investment vehicle in the renewable energy sector, for development activities aimed at obtaining the “ready to build” status for a photovoltaic plant with a capacity of between 5-10 MWp in the province of Cremona, for a total amount, including fixed and success fees, of €714,000. At the same time, the parties have undertaken to enter, no later than March 31, 2026, into a contract for the construction of the aforementioned plant for an amount of approximately €4.5 million.

SBS's commitment to carry out the works is valid until December 31, 2026, and is subject to the fulfilment of certain conditions precedent relating to (i) obtaining the necessary authorizations for the operation of the plant and (ii) the modalities of participation by Photovoltaicum S.r.l. in procedures for access to subsidies and/or incentives.

## **Information about Ecomembrane**

***Ecomembrane S.p.A., with registered office in Gadesco Pieve Delmona (Cremona) and North Little Rock (Arkansas, USA), has been operating in the renewable energies and biogas sector since 2000 and is managed by its Founder and CEO, Lorenzo Spedini. Ecomembrane considers itself one of the founding fathers of the modern era membrane gasholders and is specialised in producing gasholders, heat shields for anaerobic digesters, odour control-covers made in PVC-coated fabric membrane and all parts of products needed for the combustion of biogas and the production of electricity. The Company designs, produces, markets and installs components for biogas and biomethane production plants and gas storage systems such as biogas, methane, CO<sub>2</sub>, hydrogen. It is also involved in the photovoltaic industry with its subsidiary SBS Solar, focusing on the sale of single-axis trackers and the development and construction of turnkey systems. The Company currently has more than 70 employees and is present commercially on all continents and in 40 countries, with offices and production units in Italy and the USA.***
