

**SBS SOLAR TRANSFERS THE RIGHTS FOR THE CONSTRUCTION AND OPERATION OF A PHOTOVOLTAIC PLANT FOR AN AMOUNT OF APPROXIMATELY €700,000 AND SIGNS A COMMITMENT FOR THE CONSTRUCTION OF THE AFOREMENTIONED PLANT FOR AN AMOUNT OF APPROXIMATELY €3.6 MILLION**

**Gadesco Pieve Delmona, 23 December 2025** – Ecomembrane S.p.A. (hereafter “Ecomembrane” or the “Company”, ISIN IT0005543332), leading company in the design and construction of gas storage and containment systems for the production of green energy, listed on the EGM segment of Borsa Italiana S.p.A., announces that its subsidiary SBS Solar S.r.l. (hereinafter also referred to as “SBS”) has transferred to Lograto Solare S.r.l., an investment vehicle in the renewable energy sector, all the permits, authorizations, and contractual relationships in its possession necessary for the construction and operation of a photovoltaic plant with a capacity between 5-10 MWp, in the province of Brescia, for an amount of approximately €700,000 (plus VAT). At the same time, the parties have undertaken to enter into a contract for the construction of the aforementioned plant for approximately €3.6 million by June 30, 2026.

SBS's commitment to carry out the works is valid until December 31, 2026, and is subject to (i) the start of works within 12 months of the date of publication in the BURL of the project authorization title and (ii) the participation of Lograto Solare S.r.l. in procedures for access to subsidies and/or incentives according to certain procedures, and with a possible price revision of certain goods and materials, agreed between the parties.

## **Information about Ecomembrane**

***Ecomembrane S.p.A.**, with registered office in Gadesco Pieve Delmona (Cremona) and North Little Rock (Arkansas, USA), has been operating in the renewable energies and biogas sector since 2000 and is managed by its Founder and CEO, Lorenzo Spedini. Ecomembrane considers itself one of the founding fathers of the modern era membrane gasholders and is specialised in producing gasholders, heat shields for anaerobic digesters, odour control-covers made in PVC-coated fabric membrane and all parts of products needed for the combustion of biogas and the production of electricity. The Company designs, produces, markets and installs components for biogas and biomethane production plants and gas storage systems such as biogas, methane, CO<sub>2</sub>, hydrogen. It is also involved in the photovoltaic industry with its subsidiary SBS Solar, focusing on the construction of single-axis trackers and the development and construction of turnkey systems. The Company currently has more than 70 employees and is present commercially on all continents and in 40 countries, with offices and production units in Italy and the USA.*
